

Climate Presentation

Name _____

Climate _____

Using a variety of sources, create a presentation about your climate. Include factors that affect your climate and how these factors affect the type of living and nonliving things in your climate. Use the sources given below. If you choose to use an additional source for information, you must list that source in your presentation. Follow this rubric for your presentation.

Sources:

- Science Textbook
- Weather Facts Book
- <http://www.nationalgeographic.org/encyclopedia/climate/>
- <https://sites.google.com/site/climatetypes/>
- <https://www.brainpop.com/science/weather/climatetypes/>
- <http://www.blueplanetbiomes.org/climate.htm>

Rubric:

- Create a Google Slides Presentation (20 points)
 - Include a Title Slide
